PROFESSIONAL SUMMARY

Results-driven and highly motivated Software Developer with strong expertise in full-stack development using the MERN stack and modern JavaScript frameworks. Passionate about designing scalable systems, building production-ready SaaS applications, and implementing AI-powered solutions. Seeking a Software Developer Internship to leverage strong foundations in Data Structures, System Design fundamentals, and backend engineering while progressing toward a Senior Developer role.

EDUCATION

B.Tech in Computer Science Engineering

Panipat Institute of Engineering and Technology

Expected Graduation: 2027

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript (ES6+)

Frontend: HTML5, CSS3, React, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: MySQL, MongoDB

Cloud & DevOps: Docker (Basics), AWS (Basics), Vercel, MongoDB Atlas

Tools: Git, GitHub, VS Code, IntelliJ IDEA

CS Fundamentals: Data Structures and Algorithms, DBMS, Operating Systems, OOP, Computer Networks

PROJECTS

AI Skill Gap Analyzer and Placement Intelligence Platform (MERN Stack)

- Designed and developed a full-stack AI-driven platform to analyze students' technical skill gaps and provide personalized learning and placement recommendations.
- Integrated third-party AI APIs to evaluate resumes, assess skill proficiency, and generate intelligent career insights.
- Built scalable RESTful APIs using Node.js and Express with secure JWT-based authentication.
- Implemented dynamic dashboards using React and Redux Toolkit for real-time analytics and performance tracking.
- Optimized MongoDB queries and structured database schemas for performance and scalability.
- Deployed production-ready application using Vercel and MongoDB Atlas with environment-based configuration.

Smart Expense Tracker with Analytics

Technologies: Java, MySQL, JDBC, JFreeChart

- Developed a desktop-based expense tracking system with user authentication.
- Implemented CRUD operations using MySQL database.
- Designed dashboard for tracking income and expenses.
- Integrated charts for expense visualization.

ACHIEVEMENTS & STRENGTHS

- Strong analytical thinking and problem-solving ability.
- Built and deployed production-ready full-stack SaaS applications.
- Proficient in Git-based collaborative development and version control workflows.
- Effective communicator and strong team collaborator.
